

Mayank Patel

Information Security Research & Engineering

📍 Vadodara, India | 📞 +91-9173006444 | ✉ iammayank2082@gmail.com | [in LinkedIn](#) | [Medium](#)

PROFESSIONAL SUMMARY

Dedicated cybersecurity professional with nearly 4 years of experience in penetration testing, security research, and incident response. Passionate about offensive security, threat analysis, and building automation tools to strengthen enterprise-level defenses. Experienced in collaborating with law enforcement, government bodies, and cross-functional teams to identify and remediate critical vulnerabilities across web, network, API, and mobile platforms. Driven to tackle complex security challenges and contribute to impactful cybersecurity initiatives.

SKILLS

- **Core Strengths:** Attention to Detail, Problem Solving, Adaptability, Technical Leadership, Team Collaboration
- **Security:** Manual & Automated Pentesting, Web/API/Network/Mobile Pentesting, VAPT, DAST, SAST, WAF Management (Cloudflare), IDS/IPS Systems, Threat Hunting, Incident Response
- **Networking:** OSI Model, TCP/IP, UDP, SSL/TLS, DNS, HTTP/HTTPS, Network Protocol
- **Tools:** Burp Suite, Accunetix, AppScan, ZAP, NMAP, Docker, OpenVAS, Nessus, MobSE, Drozer, Frida, Objection, Postman, Metasploit, MITM Proxy
- **Operating System:** Debian, Ubuntu, Kali, Parrot, Windows
- **Programming & Scripting:** Python(Intermediate), Bash(Basic), SQL(Intermediate), HTML(Intermediate), JavaScript(Basic), PHP(Basic), LaTeX(Basic)
- **Compliance & Frameworks:** NIST, ISO 27001, ISO 27017, GDPR, PCI DSS, SASE, GRC

EXPERIENCE

• Forenzy Network [🌐]

APR 2022 - Present

CyberSecurity Analyst & Researcher

Vadodara, India

Forenzy Networks is an ISO 9001:2015, ISMS & SOC-2 Type-II certified cybersecurity and digital forensics company offering 27+ security services to government organisations and corporate sectors across manufacturing, finance, telecom, and pharmaceuticals. As a CyberSecurity Analyst & Researcher, I specialise in identifying, assessing, and remediating security vulnerabilities across enterprise-level applications and infrastructure, contributing to multiple high-impact security projects under direct CTO supervision.

- Perform in-depth **penetration testing** across Web Apps, Networks, APIs, and Mobile Apps using manual methods and automated tools, identifying 100+ critical and high-risk vulnerabilities across 20+ client engagements and delivering actionable remediation recommendations.
- Develop **security testing automation tools** using Python, Docker, and custom scripts, streamlining DAST and SAST workflows and improving testing efficiency by approximately 70%.
- Conduct research on emerging cybersecurity threats, vulnerabilities, and **attack vectors**, contributing to innovative defense strategies.
- Collaborate with product development teams to implement security best practices, conduct **threat modeling and risk assessments**, and provide mitigation strategies for secure product design.
- Carry out **digital forensic investigations** to analyze and resolve security breaches effectively.
- Monitor and analyze 1,000+ security events and alerts from **DevSecOps** tools, ensuring timely identification and response to potential threats.
- Deploy and manage **Web Application Firewalls (WAF)**, create custom rules, monitor traffic, and analyze incidents to mitigate threats.
- **Author technical blog posts** on cybersecurity topics for the company's [official blog](#), contributing to knowledge sharing.

PROFESSIONAL & COMMUNITY CONTRIBUTIONS

• **Cyber N GO Charitable Trust []**

Cybersecurity Awareness Educator (Volunteer)

2022 - Present

Vadodara, India

Cyber N GO Charitable Trust is a non-profit organisation dedicated to combating cyber crimes, promoting digital safety, and empowering communities through cyber awareness. As a volunteer educator with hands-on offensive security expertise, I design and deliver cybersecurity training programs in partnership with government law enforcement agencies, academic institutions, and global technology organisations, reaching thousands of participants across diverse audiences.

- Led cyber awareness programs in collaboration with **Microsoft Digital Security Organization, IIT Kanpur**, and prominent student clubs, educating diverse audiences on cyber safety.
- Supported law enforcement at **Cyber Cell Vadodara**, assisting in identifying and tracking cybercriminals and contributing to real investigations.
- Conducted joint research with the **Ahmedabad Crime Branch** on emerging cybercrime trends and analytical threat assessment.
- Trained children under the “**Kids Ninja**” program on online safety, responsible digital behavior, and cyber hygiene.
- **Researched** emerging cybercrimes and contributed to 200+ digital awareness posts, educating thousands about evolving threats via [Instagram](#), reaching over 10K audience weekly.

WORKSHOPS & PUBLICATIONS

- “**Cyber Guard Training: Offensive Security Workshop**” – **The Maharaja Sayajirao University of Baroda**, in collaboration with **Cawach Kendra, Government of Gujarat**. Delivered live attack simulations on offensive security and ethical hacking techniques.
- “**Cyber Ninja Program**” – **Microsoft Digital Security Organization (GIVE2024)**, in collaboration with CyberNGO. Conducted interactive hands-on cybersecurity sessions educating young minds on digital safety.
- **Technical Blog Author** – Published articles on cybersecurity threats, VAPT methodologies, and security best practices on [Forenzy Blog](#) and [Medium](#).

EDUCATION

• **Drs. Kiran & Pallavi Patel Global University & Technology (KPGU)**

Bachelor of Technology – Computer Science & Engineering

Graduated 202

Vadodara, India

LANGUAGE

English, Hindi, Gujarati & Marathi
